

## Mental Health Issues & Young People

### Aims:

Participants will develop greater awareness of different mental health issues & the impact that they have on the people that they teach.

### Outcomes:

Participants will develop an understanding of the different mental health conditions

Participants will consider what happens to the people they support if mental health needs go undiagnosed & untreated

Participants will consider how they can promote positive mental health attitudes

Participants will consider the impact that society currently has in relation to mental health needs & the effect this has on young people
