

# Safeguarding Children from Harm

## **AIMS:**

To ensure that participants are aware of the indicators that might be apparent when children are at risk.

To ensure that participants understand the processes for referral to the statutory agencies.

To ensure that participants are aware of their role in reviews, support plans & sharing of information protocols.

## **OUTCOMES:**

Participants will increase their awareness in relation to child protection issues.

Participants will increase their understanding about levels of risk to children, young people others involved in investigations.

Participants will consider the role of their candidates in relation to sharing of information protocols & the data protection act.

Participants will understand the need for their candidates to follow procedures & importance of providing clear, relevant & accurate information.

Participants will have an increased awareness of their candidates' role & responsibilities in relation to Child protection conferences.

Participants will reflect on the emotional impact on people in relation to child protection issues.
